## **DETAIL ACTION**

### ***Reasons For Allowance***

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a power supply device for energizing a discharge lamp comprising a boosted-voltage changing circuit for changing the boosted voltage output from said booster circuit; a voltage lowering circuit for lowering an output voltage from said boosted-voltage changing circuit and outputting an activating output voltage for activating a discharge lamp to turn on the discharge lamp and an energizing output voltage for keeping the discharge lamp energized; and a control device for controlling a boosted voltage in said boosted-voltage changing circuit within a predetermined range based on the voltage of a full-wave rectified waveform when said voltage lowering circuit outputs the energizing output voltage as required in claim 1.
3. The remaining dependent claims are allowable for at least above reason.
4. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. Okamoto et al. (US Pat. 6,605,906) discloses a light source device. Kamoi et al. (US Pat. 6,437,515) discloses discharge lamp lighting device of high startability with high pulse voltage. None of cited prior arts stands alone or combination with others discloses all limitation required in claim invention.

### ***Correspondence***

Any comments considered necessarily by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
